

## VCs on Skis - Agenda 2017

Friday | March 3, 2017

8:15 PM

**Venture Price is Right**

1:24 PM

**Family Fun**

2:12 PM

### **A.I. Panel**

Despite the technology being decades old, the prevalence of computing power and abundance of data have given AI experts the ability to make meaningful progress in the last decade. From beating AlphaGo champions to determining emotion in pictures and videos, the impacts of AI are being felt across markets with sufficient room to continue on the same course for years. With all the hype, there are more and more startups moving into the space, whether as a pivot or from inception. The volume of startups and the lack of knowledge about the technology will inevitably lead to “missed expectations” between investors and founders. This panel brings together early stage (Michelle Bacharach of FindMine) and later stage (Matt Zeiler of Clarifai) startups, an investor (Mike Brown of Bowery Capital) and an AI expert (Sam Gross or Apptinum) to discuss how to make sense of the technology and to make sure you're investing in the next big success story. This panel is moderated by Steven Kuyan of NYU FutureLabs.

3:15 PM

### **Cannabis Panel**

This panel will explore the growth, opportunities, and risks of the emerging legal cannabis industry. The panelists will address questions about the characteristics of both the medical and recreational markets, and their related sub sectors, the current regulatory environment, and challenges the industry will face going forward. Panelists include Scott Greiper, President and Founder of Viridian Capital Advisors, a strategic financial advisory firm dedicated to the cannabis industry, and publisher of the Viridian Deal Tracker, Giadha De Carcer, CEO and Founder of New Frontier the leading data analytics company serving the cannabis industry, Ari Hoffnung, CEO of Vireo Health NY, one of the five licensed medical cannabis providers in New York State, and Ari Schwartz, Director of Acquisitions for Kalyx Development a private Real Estate Investment Trust focused on the cannabis industry. The panel will be moderated by Jeff Finkle, Chairman, Evaluation Committee, ARC Angel Fund

6:15 PM

### **On the Slopes**

**Saturday | March 4, 2017**

10:00 AM

### **VCs on Skis Arcade Center**

X-BOX, PS4 & WII GAMES FOR KIDS OF ALL AGES

4:00 PM

### **Sponsors Reception & Panel: Practical Perspectives of Artificial Intelligence Investing from Startups and Investors**

Despite the technology being decades old, the prevalence of computing power and abundance of data have given AI experts the ability to make meaningful progress in the last decade. From beating AlphaGo champions to determining emotion in pictures and videos, the impacts of AI are being felt across markets with sufficient room to continue on the same course for years. With all the hype, there are more and more startups moving into the space, whether as a pivot or from inception. The volume of startups and the lack of knowledge about the technology will inevitably lead to “missed expectations” between investors and founders. This panel brings together early stage (Michelle Bacharach of FindMine) and later stage (Matt Zeiler of Clarifai) startups, an investor (Mike Brown of Bowery Capital) and an AI expert (Sam Gross of AppTinum) to discuss how to make sense of the technology and to make sure you're investing in the next big success story. This panel is moderated by Steven Kuyan of NYU FutureLabs.
